

Shoot like a pro photographer

Our private lessons will give you the tools to unleash your creativity.

With over 25 years of teaching experience, MLK Studios can help even the least experienced photographers think and shoot like professionals. All you need is a camera with manual controls and the desire to do what you've secretly wanted to do all your life.

Everything is covered to go pro with your film or digital camera. You could be earning \$100 per hour, or more, doing what you love to do, in less time than you think.

MLK Studios Photography School

Start anytime you like

Choose the day that suits you best.

Our ongoing programs let you begin whenever you like. Each class is only two hours long, with an assignment to keep you busy between sessions. We cover everything that an expensive two year program offers for a lot less time and money.

Soon you will be shooting like a pro.

Available Times		
Day	Time	Location
Monday to Friday	10am-12pm 12pm-2pm 2pm-4pm	Hollywood
Weekends & Evenings	By Appointment Only	Hollywood

Advanced classes too

After completing the introductory program you can choose to refine your new skills in any area you wish.

Advanced classes available in Portraiture, Journalism, Fine Art, Large Format film cameras, Digital Darkroom and more.

When paid in advance, the total cost for the introductory and advanced programs is less than \$1,000. You'll earn that back in a few weekends. *

Private courses start at under \$600

* Discounts available for advanced payment of two or more classes.

Learn Online

For those who live too far from Los Angeles to take our private lessons, we offer our Introductory course at a reduced rate.

You will get the same level of training as our private lessons and can study in the comfort of your own home. Plus you can access the course from any computer, anytime and any place.

Questions are answered by toll free phone or email, usually within a few hours, sometimes within minutes and if you chose to, you can submit your work for critique to help you further improve your skills.

Online Course \$395

Further information on the online photography course is available at:
